

Midterm Proposal: AVAbrew Website

Lilyanne Jaczko

What is AVAbrew?

AVAbrew is the coffee shop that I work at (its just around the corner come say hi!) We dont have a proper website for the store so I want to make a website that showcases our awesomeness!

Skills Already Learned

Navigation Bar

A navigation bar will be used in order to link between each of the pages

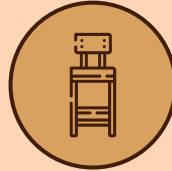

Positioning

I will practice my positioning of objects on the screen using flexboxes and other methods

Structure

I will use semantic tags and utilize good structure and syntax

Style

I will use the styling aspects including box shadow and image styling

Skills I Need To Learn

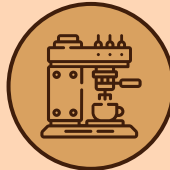

Interactive

I still need to work on how to make a reactive gallery that will expand images on clicks and hovers

Embedded

I want to learn how to embed a link to the maps in order to show the location of the store visually

Styling Forms

I want to learn how to style a contact form so that it looks pretty and looks like the rest of the website
